The meeting was called to order by Bobby Sutton, Chairman. Minutes of the last meeting were approved as read. The meeting was then turned over to David Fencil. Each board member had been given a draft copy of the Yadkinville 2025 Land Development Plan. The plan was a preliminary draft and was the first attempt to bring together the many discussions and information that have occurred over the past six months. He asked all board members to particularly review pages 28 through 35 of the draft.

Nicole Hege was also present from the NCDOT to discuss transportation issues involving the town and also future plans that involve the TIP program.

A new map was looked at by the members that showed the lay out of the different land use areas. Some minor changes were discussed and considered as changes to be made.
