

Requirements for Receiving Bulk Water

- **Customers must either pre-pay or set up an account at Town Hall
(All water must be received in a single day)**
- **Customers must supply their own hose**
- **The Town has a limited supply of fittings for hoses including:**
 - **2.5" Male Standard Firefighter threads**
 - **2" Male Cam-Lock**
 - **1.5" Male Firehose threads**
 - **1.5" Male NPT Threads**
- **Customers must supply any fitting not listed that is needed for filling**
- **Customers must also supply a fill pipe with minimum of a 6" Air Gap that is permanently attached to the Tank**

What is an Air Gap?

- **An Air Gap is a physical disconnect from the filling pipe and the tank being filled.**
